

OmniVin R

>>> Grape Seed Extract OmniVin R Product data-sheet

OmniVin R is a low cost alternative for cheap ill defined grape seed extracts imported from the Far East. OmniVin R is prepared from carefully selected grape seeds sourced within Europe and is produced in Europe, using a strictly controlled process. The production of OmniVin R is monitored and controlled according to the highest European QC/QA standards.

OmniVin R is a 100 % natural material extracted from renewable plant materials using dedicated strictly controlled equipment.

>>> PROPERTIES^(*)

- | | |
|--|--|
| ▪ Appearance: | Red brown powder, free of visible impurities |
| ▪ Botanical origin: | <i>Vitis vinifera</i> seed extract |
| ▪ Total polyphenols (on dry material): | min. 65 % |
| ▪ Moisture: | max. 10 % |
| ▪ Insoluble fraction: | max 5 % |

^(*) Only selected data is represented here, for a full set of specifications we refer to our **Specifications** sheet.

>>> USAGE

OmniVin R can be used in food or nutraceutical formulations.

OmniVin R was specifically developed to provide a low cost alternative for ill defined imported grape seed extracts from the Far East, yet provides the customer the guarantee that the material is produced in Europe using controlled raw materials from European vineyards.

OmniVin R is produced in the same facilities used for our high quality grades using the same quality control and quality assurance standards, guaranteeing full compliance and traceability.

>>> STORAGE AND HANDLING

OmniVin R does not require special storage conditions and has a shelf life of min. 5 years if stored in a dry area in its original closed packaging. The product is not frost sensitive and normal ambient storage temperatures (i.e. 5-25°C) suffice.

The product should not be stored in areas with a high relative humidity as the product – especially when the packaging material is not properly resealed – will pick up moisture from the air.

Due to its granular form OmniVin R produces little or no dust during handling.

>>> PACKAGING

OmniVin R is available as a granular product in 25 kg fibre drums lined with an inner polyethylene bag.

>>> FURTHER INFORMATION

Further safety information is provided in our **Material Safety Data Sheet**.

Upon simple request a controlled copy of our **Specifications** can be provided by our QC-department.

Information on usage and applications can be found in our **Application Fact Sheets**. Our R&D department can provide you further detailed information on composition and regulatory status.

All deliveries are accompanied by a **Certificate of Analysis**.
